BANGKOK LAND PUBLIC COMPANY LIMITED
INTERIM FINANCIAL STATEMENTS
JUNE 30, 2007
AND AUDITOR'S REVIEW REPORT

#### AUDITOR'S REVIEW REPORT

To the Shareholders and the Board of Directors of Bangkok Land Public Company Limited

I have reviewed the accompanying consolidated balance sheet of Bangkok Land Public Company Limited and its subsidiaries as at June 30, 2007, and the consolidated statements of income, changes in shareholders' equity and cash flows for three-month periods June 30, 2007 and 2006, and the separate balance sheet of Bangkok Land Public Company Limited as at June 30, 2007, and the statements of income, changes in shareholders' equity and cash flows for three-month periods ended June 30, 2007 and 2006. These financial statements are the responsibility of the Company's management. My responsibility is to issue a report on these financial statements based on my reviews.

I conducted my reviews in accordance with the standard on auditing applicable to review engagements. This standard requires that I plan and perform a review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquires of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. I have not performed an audit and, accordingly, I do not express and audit opinion.

Based on my reviews, nothing has come to my attention that causes me to believe that the interim consolidated and separate financial statements referred to in the first paragraph are not presented fairly, in all material respects, in accordance with g e n e r a 1 1 y a c c e p t e d a c c o u n t i n g p r i n c i p 1 e s.

I have audited the consolidated and separate financial statements for the year ended March 31, 2007 and 2006 of Bangkok Land Public Company Limited and its subsidiaries, presented herein for comparative purpose, and expressed an unquailified opinion on those statements and drew attention to the fact that the Company and certain related parties signed debt set off agreement and the Company recorded additional provision for uncompleted construction work under its contractual obligation of certain property sales agreements in my report dated May 28, 2007. The balance sheets as at March 31, 2007 formed an integral part of the financial statements which I audited and reported on. I have not performed any other audit procedures subsequent to the date of that report, except for the Company's restatement of the separate financial statements for the prior period of 2006 to reflect the change in accounting policy for recording investments in subsidiaries from equity method to cost method as described in Note 3 to the financial statements. The adjustments made for the preparation of such statements are appropriate and have been properly applied.

- 2 -

Without qualifying opinion, I draw your attentions to a) Note 4.6 to financial statements, on December 30, 2005, the

Company and certain related parties signed the debt set off agreement and the Company recorded additional provision of

Baht 442 million for uncompleted construction work under its contractual obligation of certain property sales agreements.

The management estimated that the maximum amount of construction cost to complete the properties would not be higher

than Baht 804 million and b) Note 3 to financial statements, the change in accounting policy for recording investments in

subsidiaries from equity method to cost method in the separarate financial statements.

The Company established a wholly-owned subsidiary, BL Cayman, in October 1992 with a registered capital of USD 10,000. BL Cayman issued exchangeable notes in foreign capital markets, guaranteed by the Company and the entire proceeds of the notes were lent to the Company on equivalent financial terms (Note 14).

The Company entered into a loan agreement with BL Cayman on October 13, 1993, whereas in the event that the Company should have failed to meet its payment obligation which would have caused BL Cayman not able to make its payment to the note holders, the Company agreed to pay BL Cayman a penalty interest of 1% above the normal interest rate per annum on the amount due by the Company. However, the management assesses that no liabilities will be incurred as during the past years BL Cayman has been redeeming the notes at a price substantially lower than its face value and no claim has been made against the Company. The Company therefore has not accounted for the penalty interest in its financial statements.

### 4.6 Provision for uncompleted construction work

In 1992 the Company sold a number of condominium units ("the Properties") in one of the Company's projects at Muang Thong Thani ("The Project") to a group of third party investors and the rights of the agreements were subsequently resold by the investors to Kanjanapas Company Limited (KCL). The Properties were legally transferred to KCL before full completion of the construction work as required under the agreements. KCL has therefore withheld the final payment of Baht 362 million.

**JUNE 30, 2007** 

On December 30, 2005, Yee Hing, KCL and the Company signed a debt set off agreement whereas Yee Hing agreed to pay Baht 362 million to the Company by a set off of the same amount against debts owed by the Company to Yee Hing. On the other hand, the Company agreed either to complete the unfinished construction work of the Properties or repay Yee Hing an amount equivalent to the costs valued by an independent appraiser ("Construction Cost Consultants Limited Partnership"), to finish the construction work of the uncompleted Properties or any other amount by mutual agreement between the parties. In October 2005, an independent construction cost appraiser employed by the Company has assessed the current construction cost as to complete the Project as Baht 884 million. The pro-rata value attributable to the properties under the agreements with KCL was Baht 804 million. With Baht 362 million already provided for as allowance for doubtful accounts, accordingly, net effect on the statement of income for the year ended March 31, 2006 amounted Baht 442 million and the total amount of Baht 804 million was shown under "Other Current Liabilities" in the financial statements as at June 30, 2007 and March 31,2007.

In July 2006, the Company appointed TAP Valuation Co., Ltd., a second independent appraiser approved by the Office of Securities and Exchange Commission of Thailand, to appraise the construction cost as to complete the project. The appraised cost amounted to Baht 882 million which is not materially different from the prior appraised cost by Construction Cost Consultants Limited Partnership.

The Company estimated that the maximum exposure of construction cost to complete the properties would not be higher than Baht 804 million.

## 4.7 Short-term loans and advances from directors

The loans and advances from directors are for the purposes of financing construction cost and interest on loans from financial institutions. From April 2003 to June 2003, the loans carried interest at rates of 5.25% - 7.50% per annum. The loans have no fixed repayment terms. Effective July 1, 2002, the directors have suspended charging interest to the Company. However, the directors have recommenced charging interest to the Company from January 2005 at MLR per annum onwards.

### NOTES TO INTERIM FINANCIAL STATEMENTS

**JUNE 30, 2007** 

#### 19. Financial instruments

As at June 30, 2007 and March 31, 2007 the Group has the following risks relating to significant financial instruments:

### a) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

The Group has long-term loans from banks, and the value of such loans will fluctuate due to changes in market interest rates.

### b) Currency risks

Currency risk is the risk that the value of the financial instrument will fluctuate due to changes in currency exchange rates.

The Group faced currency exchange risk relating to Exchangeable Notes denominated in Swiss Francs and U.S. Dollars. The Group had not hedged its foreign currency liabilities relative to these Exchangeable Notes as repayment date of debts remains uncertain following the default by the Group in payment of interest and principal which caused the total amount of debts to become due for repayment as explained in Note 14.

### c) Liquidity risk

Liquidity risk or funding risk is the risk that the Group will encounter difficulty in raising fund to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly or close to its fair value.

#### d) Fair value of financial assets and liabilities

The carrying amounts of all financial assets and liabilities of the Group as at March 31, 2007 and 2006 as presented in the consolidated financial statements and company financial statements approximate to their fair values except for the fair value of loans under debt restructuring agreements and long-term debt instruments cannot be calculated, accordingly, no disclosure is made.

### 20. Contingent liabilities

As at June 30, 2007 and March 31, 2007, the Company has contingent liabilities
